WHAT OUR CUSTOMERS ARE SAYING

" We have used Turf Drain here since 1984. It's done an excellent job."

RICHARD LUIKENS
THE WOODLANDS
WOODLANDS, TX

" Our #3 fairway was unmowable with anything but handmowers for most of 1991. In the spring of 1992, we installed TURF DRAIN in that fairway. Since then, we have had over 100 inches of rain and the hole hasn't been closed one day."

MICKEY McCORD
SAPHIRE LAKES C.C.
Highlands, N.C.

" I use it anywhere that we would have used perforated pipe in the past."

OTTO SUTOR
BAYOU DeSIARD C.C.
Monroe, LA

"In 1989 we were advised by a reputable soil lab that because of the low infiltration rates on our greens, the only solution to our drainage problems was a complete reconstruction. TURF DRAIN was installed on all 18 greens at 10% of the cost of reconstruction, and the results have been excellent."

Al Lassiter
Raleigh C.C.
Raleigh, NC

Our football field was a worst case scenario. If we received a 1/2" of rain, we wouldn't be able to mow. We installed about 4,000 feet of TURF DRAIN, and the difference was dramatic. Last year was very wet, and we were able to mow anytime we needed to."

Dave Good
Manchester College
N. Manchester, IN

"TURF DRAIN was my answer to draining our heavy clay greens. The alternative would have been a reconstruction that would have cost at least 10 times the price. The TURF DRAIN has been money well spent."

PAT FRANKLIN
River Glen C.C.
Fishers, IN

DRAINAGE SERVICES
